

ER-04 (HU)

Pogány - Rózsás Forest Reserve (Börzsöny)

core area: 91.3 ha; buffer zone: 305.1 ha; total area: 396.4 ha

Posted/updated: : 2016-12-31

Északi-középhegység forestry-based landscape classification

Ipoly Erdő Zrt. ; Duna-Ipoly National Park Directorate

History:

It was declared as a forest reserve by the Decree No. 14/2000 of the Ministry of the Environment (MK 2000/66: 4068-4072.)

Description:

1999

"This reserve is well represented by average (or even more natural) beech forests of Börzsöny; it is quite rich in special habitats. The biodiversity is high; the area is a large catchment, surrounded by natural boundaries. Based on its age group and stand structure it belongs to the more diverse areas in spite of alien afforestation."
