

ER-53 (HU)

Szalafő Forest Reserve (Vasi-Hegyhát)

core area: 12.0 ha; buffer zone: 97.0 ha; total area: 109 ha

contact person: Horváth, Jenő (ÖNPI)

Posted/updated: : 2022-06-02

[Nyugat-Dunántúl forestry-based landscape classification](#)

[Őrség National Park Directorate](#)

History:

It was declared as a forest reserve by the Decree No. 13/2000. of the Ministry of the Environment (MK 2000/66: 4065-4068.).

Description:

1999

"In the quite small core area remained from the extensive farming, which was a shifting cultivation of forest-arable land previously characteristic of the region, considerable natural tree species conversion has happened in the last decades. These dynamics can be studied well - as a consequence of a former detailed survey."
